MERN Stack

Best for Developing Web Apps

MongoDB

Express JS

React JS

Node JS

Evolution of Web

The web has evolved significantly since its inception in the early 1990s. The development of the web is often classified into three stages:

Web 1.0 (1991–2004), Web 2.0 (2004–2010), Web 3.0 (2010–present)

Web 1.0

read-only
static

Web 2.0

read-write
interactive

Web 3.0

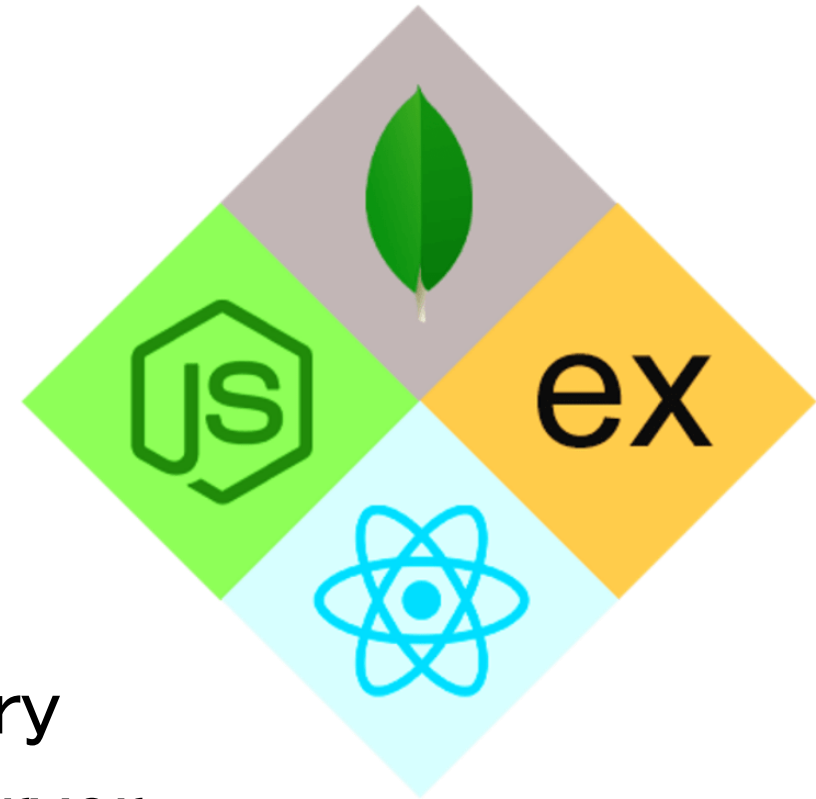

read-write-trust
verifiable

Welcome to the course!

What is the MERN stack?

MERN stands for MongoDB, Express, React, Node, after the four key technologies that make up the stack.

- ❑ MongoDB — document database
- ❑ Express.js — Node.js web framework
- ❑ React.js — a client-side JavaScript Library
- ❑ Node.js — the premier JavaScript web server

Course Objectives

Why the MERN stack?

MERN stack is a collection of technologies that enables faster application development. It is used by developers worldwide. The main purpose of using MERN stack is to develop apps using JavaScript only.

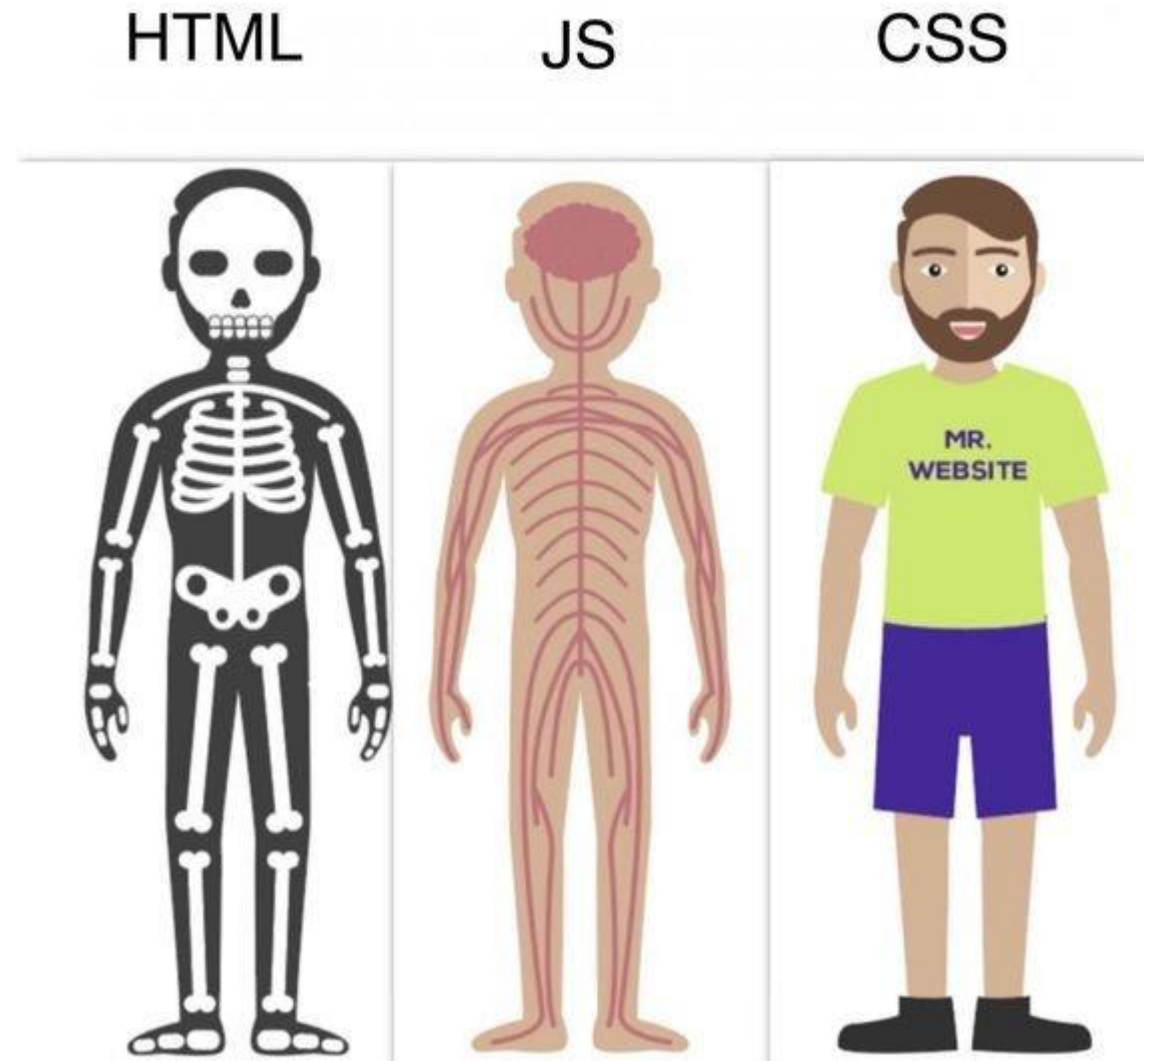

- ☐ JavaScript-based
- ☐ Reusability
- ☐ Scalability
- ☐ Faster Development
- ☐ Community Support

Prerequisite

1. **HTML:** Hypertext Markup Language is a markup language used for creating and structuring content on the web. It provides the basic building blocks for web pages.
2. **CSS:** Cascading Style Sheets is a style sheet language used for describing the visual presentation of a web page. It provides the layout, colors, fonts, and other stylistic elements of a web page.
3. **JavaScript:** A programming language used to create dynamic and interactive web pages. It is often used in conjunction with HTML and CSS to provide interactivity and functionality to web pages

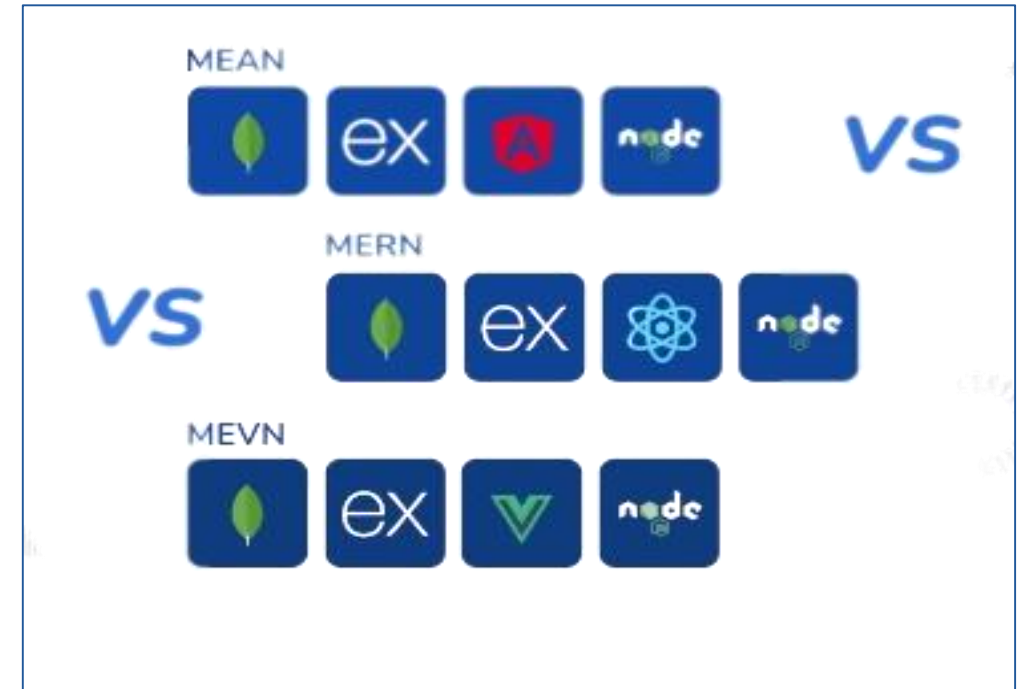

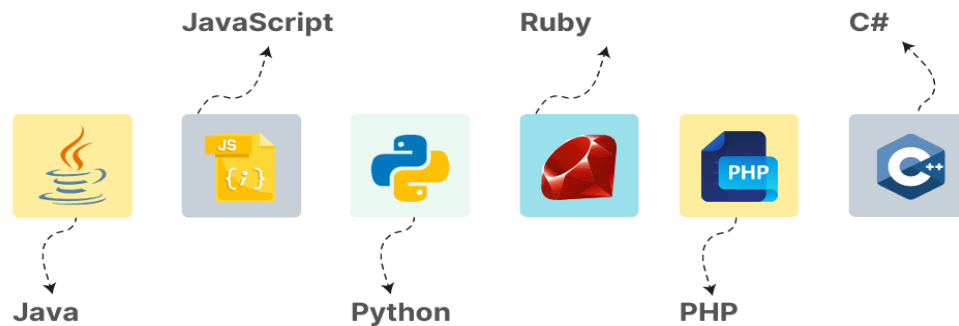

HTML, CSS, and JavaScript in Web design?

1. **HTML** is Skeleton of your website
2. **CSS** gives all the nice fleshy covering to the website
3. **JavaScript** provides basic functionality to the website to come alive.

Front End vs Back End vs Full Stack

Top Backend Programming Languages

Top Front-End Programming Languages

Course Outline

Week 1: Introduction to web development and HTML/CSS

Week 2: JavaScript fundamentals

Week 3: Introduction to React

Week 4: Introduction to Node.js and Express

Week 5: Introduction to MongoDB

Week 6: Creating a Server with Express and Node.js

Week 7: Creating a React User Interface

Week 8: Connecting Frontend and Backend with Axios

Week 9–12: Build MERN App

Hourly Salary

Junior Mern Stack Developer

Hourly: \$110-\$250 - Intermediate - Est. Time: More than 6 months, 30+ hrs/week - Posted 23 days ago

We are hiring multiple technical graduates trained in any of the technologies below Node.js React.js Angular.js Other Skills Candidates having freelance experience in any of the above skills will be highly preferred. Quick learner and updated on new technologies. Strong Analytical and problem-solving skills. Build efficient, testable, and reusable codes... [more](#)
